

METHAMPHETAMINE

IN YOUR COMMUNITY

ILLEGAL OPERATIONS POSE A SIGNIFICANT THREAT TO COMMUNITY SAFETY. METH CAN BE MADE ANYWHERE – INCLUDING WHERE YOU LIVE OR WORK.

SIGNS OF A METH LAB:

- Occupants appear unfriendly, secretive and avoid neighbour interactions
- Occupants attend for short time periods and at odd hours
- Garbage contains chemical containers, glassware or bags full of soil, or garbage is never put out at all
- Numerous security cameras that may appear excessive
- Chemical odours
- Chemical dumping grounds on or near premises (burn pits or dead spots on lawn)
- Odd items including equipment, glassware or chemical drums

DANGERS OF A METH LAB:

- Fire or explosion
- Harmful fumes and chemical exposure
- Increased criminal activity
- Environmental damage and waste

SEE THE SIGNS? MAKE THE CALL.

Remain at a safe distance and do not confront occupants. Call police or, if you wish to remain anonymous, call Crime Stoppers at **1-800-222-8477 (TIPS)**.
